Oral Presentation Schedule for the 9th Annual MSG Symposium, April 5th 2008

9:00 am **On-site registration and Welcome**

9:30 am **Student Session 1**

Yvonne Sun UC Berkeley
"Aerobic respiration under 'anaerobic' condition by perchlorate-reducing bacteria"

Paul Wilson UC Davis
"The Vi-capsule prevents Toll-like receptor 4 recognition of *Salmonella*"

Alyson Santoro Stanford
"Shifts in the relative abundance of ammonia-oxidizing bacteria and archaea in subterranean estuary"

10:45 am Break

11:00 am **Keynote Address 1**

Dr. Jared Leadbetter California Institute of Technology
"Formate dehydrogenase diversity in the homoacetogenic spirochete *Treponema primitia* and in termite hindgut microbial communities suggests their adaptation to a changing selenium environment"

Noon **Lunch and Posters**

1:30 pm **Student Session 2**

April Ferre UC Davis
"Polyfunctional T-cells in the rectal mucosa of HIV controllers"

Patrick Lee UC Berkeley
"From individuals to community: microbial physiology and functional genomics shed light into chlorinated ethenes reduction"

Stephanie Abromaitis UC Berkeley
"Attachment and entry of *Chlamydia trachomatis* have distinct requirements for host protein disulfide isomerase"

2:45 pm Break

3:00 pm **Keynote Address 2**

Dr. Michele Swanson University of Michigan
"*Legionella*, a pathogen in search of its next meal"

4:00 pm **Closing Remarks**
